

Christian Heritage *Academy*

MISSION STATEMENT

The purpose of Christian Heritage Academy is to assist the home and church in building a solid foundation in the life of each student - a life which is characterized by a personal salvation experience, the development of Christian character, the Christian conscience and Christian self-government. The ultimate goal of the Academy is to produce true Christian scholars who will be used of God to propagate the Gospel to the whole world and to restore our American Christian Republic to its historic, Biblical foundation.

Christian Heritage Academy is committed

- ★ To help students rediscover the true Christian heritage of our nation and instill a vision to restore our American Christian Republic.
- ★ To teach providential history. Providential history identifies America's Gospel purpose, the establishment of a Christian Republic, so that the Gospel may be propagated in our city, state, nation, and throughout the entire world.
- ★ To train students to think independently and take individual responsibility for their actions. A Christian philosophy of education produces a Christian form of government.
- ★ To be a tool for the development of Christian character and conscience which will enable each student to live a successful and productive life.
- ★ To develop Christian scholarship. Students should have skills and character to research, reason, and write, and thereby, be characterized as producers rather than consumers.
