7th-12th 309 Students (42 Seniors)

Most grade levels have two sections, averaging twenty-two students per section. There are three sections of a few grade levels averaging twenty students per section. The student body is representative of more than ten cities in the Oklahoma City metropolitan area. A diversity of ethnicities, cultures, and churches is represented at the academy.

VISION STATEMENT

"The vision of Christian Heritage Academy is to train American Christian leaders for every sphere of society."

MISSION STATEMENT

"The purpose of Christian Heritage Academy is to assist the home and church in building a solid foundation in the life of each student—a life which is characterized by a personal salvation experience, the development of Christian character, the Christian conscience and Christian self-government. The ultimate goal of the Academy is to produce true Christian scholars who will be used of God to propagate the Gospel throughout the whole world and to restore our American Christian Republic to its historic, Biblical foundation."

KINGDOM DIVERSITY

Our goal of pursuing Kingdom Diversity is thoroughly biblical. God inscribed the unity and diversity of the Godhead into His good creation. From the heavens above, to the ground we walk on, to the people, all of one race (Acts 17:26), who inhabit the earth, God's beauty and character were made manifest (Psalm 19:1-3, Romans 1:20, Genesis 1:26-27). Subsequently, the fall in Genesis 3 distorted the divine reflection that was embedded in creation. A symptom of humanity's fallen state is strife along lines of differences, including gender, ethnicity, and culture. Through Christ, and by the outpouring of the Holy Spirit, God's people are enabled to display God's redemptive power by simultaneously embracing and transcending the differences that enrich the tapestry of the Kingdom. Christian Heritage Academy seeks to equip our students to fulfill this God-given commission of reconciliation and love (2 Corinthians 5:18, John 13:34-35).

CURRICULAR DISTINCTIVE

Christian Heritage Academy utilizes a unified philosophy and methodology called the Principle Approach. The Principle Approach teaches Christian worldview by training students to reason Biblically in every subject. The Discovery Program is nationally certified through the National Institute of Learning Development. It is designed to help students with learning differences. Christian worldview, notebooks, writing, and speaking assignments are foundational to CHA's vision of creating leaders to influence every sphere of society.
